

Frequency	Input Volts	Woofer	Tweeter						
20	1.03	1.013	0.023		I didn't change the volume knob during the test.				
40	1.189	1.154	0.025						
80	1.265	1.223	0.028		Woofer is a Vifa P13WH.				
160	1.269	1.234	0.048		Tweeter is a Hiquphon OW1.				
320	1.206	1.154	0.119						
640	1.224	1.134	0.21		The test probes were essentially placed across each driver for the tests. The input voltage was applied to the input of the crossover.				
1280	1.276	1.15	0.344						
2560	1.27	1.119	0.585						
2600	1.291	1.166	0.608						
2700	1.287	1.164	0.626						
2800	1.283	1.162	0.648
