

Officially named the **SIGGMA-One**, my first complete design from scratch.

Dayton Audio Knock Down .23 cabinet speaker cutout.

4 ¼" hole saw or 4 ¼" routed woofer opening.

2" hole for tweeter, will mount either Vifa Tweeter.

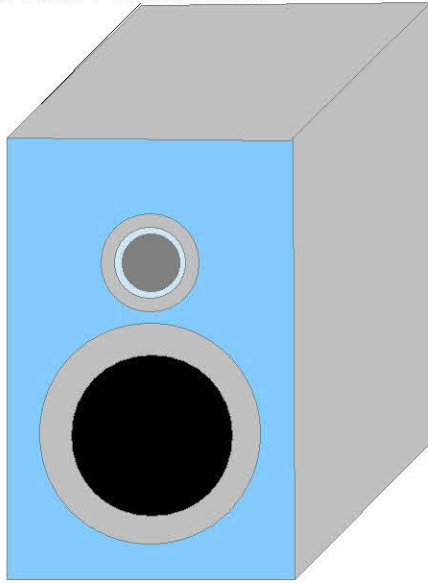

Back side of woofer cutout must be rounded or chamfered to prevent air compression and uneven and unwanted loading or interference with woofer.

Tweeter: Vifa XT25SC90-04 4 Ohm Ring Radiator

Or

Tweeter Vifa BC25SC06-04 4 Ohm Textile Dome Tweeter

Woofer: Visaton W-130S 8 Ohm 5" mid bass woofer

The Siggma One

A Bookshelf Satellite Two Way Speaker
