

Found, The Missing Link. Gauss Coaxial Monitors

It's a well known fact that loudspeakers are the missing link in studio, post production and broadcast facilities' audio chain. The accepted criteria for ideal speakers are: balanced, phase-coherent or time aligned, and with as little color as possible.

Gauss Coaxial Monitors let you hear it all, even the mistakes... without adding color. These time coherent monitors provide an extremely stable stereo image so you know exactly what you're mixing. And, if you're mixing digital sound, they offer the cleanest reproduction you've ever heard... with no high-end harshness. And, with 400 watts of power handling, you'll hear all the dynamics.

If you're upgrading for better sound, be sure to include Gauss coaxial monitors in your plans. Your choice of 12" or 15". Remember, if you can't hear the mistakes, they end up in your finished product. Let your speakers be the strongest link!

Call us today for the name of your nearest dealer or rep so you can arrange a demonstration.
