

# VII Audio SEWA Rev.D

Single Ended Class A Seven Watt Amplifier

No Voltage Gain. No Feedback.

Requires a high gain preamp with +/-12V output swing

All resistors 0,6W 1% metal film unless noted

All capacitors rated 25V or more

Q1 and Q2 mounted on minimum 8,5°C/W heatsink

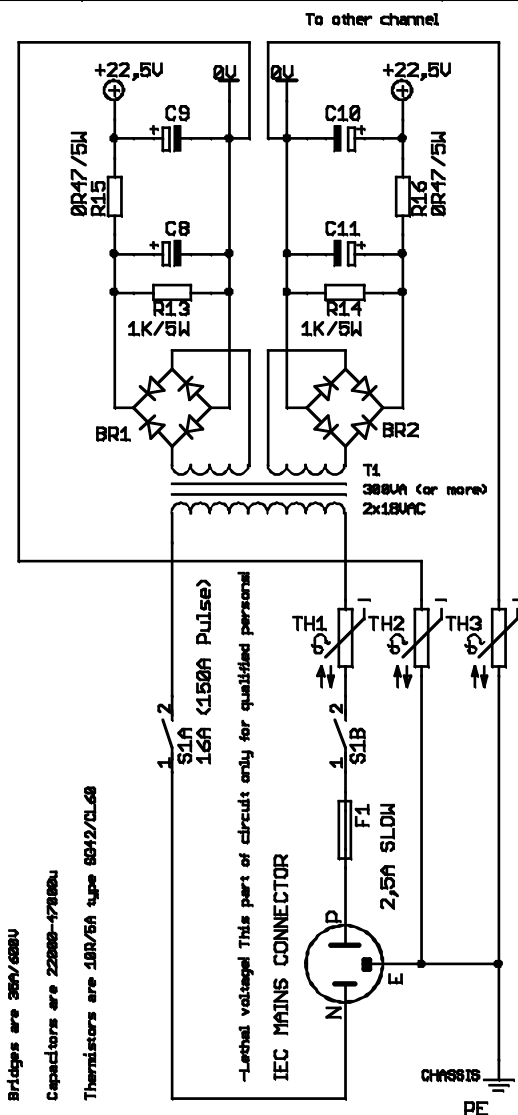

Q1 and Q2 substitutes IRFP240 and similar

## Recommended Power Supply Unit:

Bridges are 350V/600V

Capacitors are 22000-47000u

Thermistors are 100/5A type 8242/UL68

-Lethal voltage! This part of circuit only for qualified personnel
