

SMALL THOR ML-TL

27-april-06
inspired by diyAudio.com
designed by Scottmoose
drawn by dld

NOTES:

1/ drawn with $\frac{3}{4}$ " (19mm) material

2/ 0.5 lbs / ft³ (8 g /litre).
Stuff from the top to the
half-way mark, or just past

3/ $\frac{3}{8}$ " D, 4" long port
(75mm x 102mm)

4/ swiss cheese bracing as
above.

5/ $\frac{3}{4}$ " (19mm) brace
front-to-back couples the
midbasses to cabinet back,
top, & side-to-side brace.

6/ side-to-side are irregularly
spaced using golden ratio.
Diagonal is even better

7/ port can be moved to the
front or bottom
