free for non-commercial use only

Notes:

- 0/ Net volume is 10 litres less driver and bracing,
- 1/ All panels 18mm
- 2/ brace shape is only suggestive – prime purpose is to brace driver, it needs to be about 35-40% holes. (ie if you have to mount a terminal cup in the middle, you'll want to make sure the brace allows clearance), It is centrally mounted on the driver magnet
- 3/ Don't forget to angle cut the back of the driver cut-out to give it breathing room
- 4/ All internal panels lined with $\sim 1/2"$ (12mm) cotton or wool felt (preferred) and then acoustistuff (or whatever) to taste
