

HIGH-END POWER AMP EXCELSUS

The High-End Amplifier named EXCELSUS is made in Italy the output power of this final amplifier is somewhat on the modest side, but the quality is outstanding – and it is more than adequate for filling an average living room with an impressive sound image.

Matching final amplifier in an identical Gain
with a special method build for balanced system

This amplifier is thus primarily suitable for people who like to listen to music at a 'civilised' volume and are very demanding with regard to reproduction quality.

+RAIL schematic

There aren't any real surprises, and the sound quality is determined more by the choice of transistors and the circuit board layout than by the circuit design.
