

Préamplificateur à tube XA3200MKII

Préamplificateur de la série Nature utilisant les tubes 12AU7, 12XA7 et faisant appel au haut de gamme des composants électroniques (Wima...).

Spécifications:

- Impédance d'entrée: 50k Ω
- Gain: 20dB
- Réponse en fréquences: 20Hz---100KHz(\pm 1dB)
- T.H.D: 0.2%
- Rapport S/B: 83 dB
- Entrées: 3
- Sortie: 1
- Tubes: 2 * 12AX7 et 2 * 12AU7
- Consommation: 33W
- Dimensions (LxHxP): 430mmx368mmx110mm
- Poids: 11.1kg

XA3200MKII (09) is a Tube Pre-amplifier, and the upgrade version on XA3200MKII. It adopts Marants-7 circuit for its main amplification. On this input stage, Tubes 12AU7 are connected through

cathode by Xindak patent technology for coupling output. The input switchable and volume control

has been commanded by software. Its components used are including power transformer, Military-level 80W low magnet-leaking and annular transformer, imported tubes, low internal resistance rectifier, double choke coils for filtering in two ways, all Rubycon capacitors in the power

supply, high-quality WIMA-MKS2 capacitors, five-circles precious resistors.

This item can performance excellent sound and well balanced timbre with low distortion, High SNR,

and can match with all kinds of transistors and tubes amplifier.

Specifications:

- Input impedance: 50k Ω
- Gain: 20dB
- Frequency response: 20Hz---100KHz(\pm 1dB)
- T.H.D: 0.2%
- SNR: 83 dB
- Input: 3 groups
- Output: 1 group
- Tubes: 2 Pieces * 12AX7 2 Pieces *12AU7
- Power consumption: 33W
- Dimension (WxDxH): 430mmx368mmx110mm
- Net Weight: 11.1kg
