Product Details

FaitalPRO FD371 Bullet Super Tweeter 8 Ohm

FaitalPRO's FD371 bullet super tweeter, complete with an aluminum 40° conical dispersion horn, is not your typical bullet tweeter. A ferrite ring magnet assembly drives a 37 mm Kapton voice coil with ketone polymer annular ring diaphragm, resulting in an average sensitivity of 107 dB and smooth frequency response from 2.6 to 20 kHz, with an impressive minimum recommended crossover frequency of 2.6 kHz (using a -12 dB/octave filter). Made in Italy.

Specifications: • Power handling: 35 watts RMS with recommended crossover of 2,600 Hz, 12 dB/octave slope • VCdia: 1.46" • Impedance: 8 ohms • Frequency response: 2,600-20,000 Hz • SPL: 107 dB 1W/1m • Dimensions: A: 4.54" (4.02" across the flats), B: 3.58", C: 2.89".

Product Specifications

Diaphragm Material	Poly / Mylar
Impedance	8 ohms
Power Handling (RMS)	35 Watts

This driver has a very high sensitivity. How do you use this with a 96dB woofer and match the two outputs? Do you have to pad this so that it doesn't overpower the woofer?

infinity722 on Mar 11, 2017

BEST ANSWER: An I pad would indeed be the best way to match the sensitivity. I like using adjustable in this type of application so it can be a little hotter or more mellow depending on the room acoustics.

Looks like a nice piece of machined aluminum. Question I have: is a replacement diaphragm / voice coil available?

A shopper on Feb 12, 2017

BEST ANSWER: I am sorry, we do not currently offer a replacement diaphragm for this driver.

[Add Answer](#) · [I Have This Question Too \(0\)](#)

what type of crossover filter should I use for this?

A shopper on Nov 6, 2016

BEST ANSWER: Faital recommends a 2600 hz high pass at 12 db per octave or higher for this driver.

[Reply](#) · [Inaccurate](#) · [Chris F](#) Staff on Nov 8, 2016

[Add Answer](#) · [I Have This Question Too \(0\)](#)

Is this tweeter sold as each or by pair? How many tweeters do I receive in the packaging?

Lucida151 on Dec 21, 2014

BEST ANSWER: They are sold as individuals.
