

A: Black Gates non-polar 16V  
B: Duelund Cast 600v  
C: Black Gates non-polar 200V  
D: Helipot 100 ohm linear 5W

Resistors are Allen Bradley carbon composition with the exception of the 75k grid leak (Audio Note silver non magnetic tantalum) and Amtrans for 2a3 hum balancing circuit

#### Left Channel:

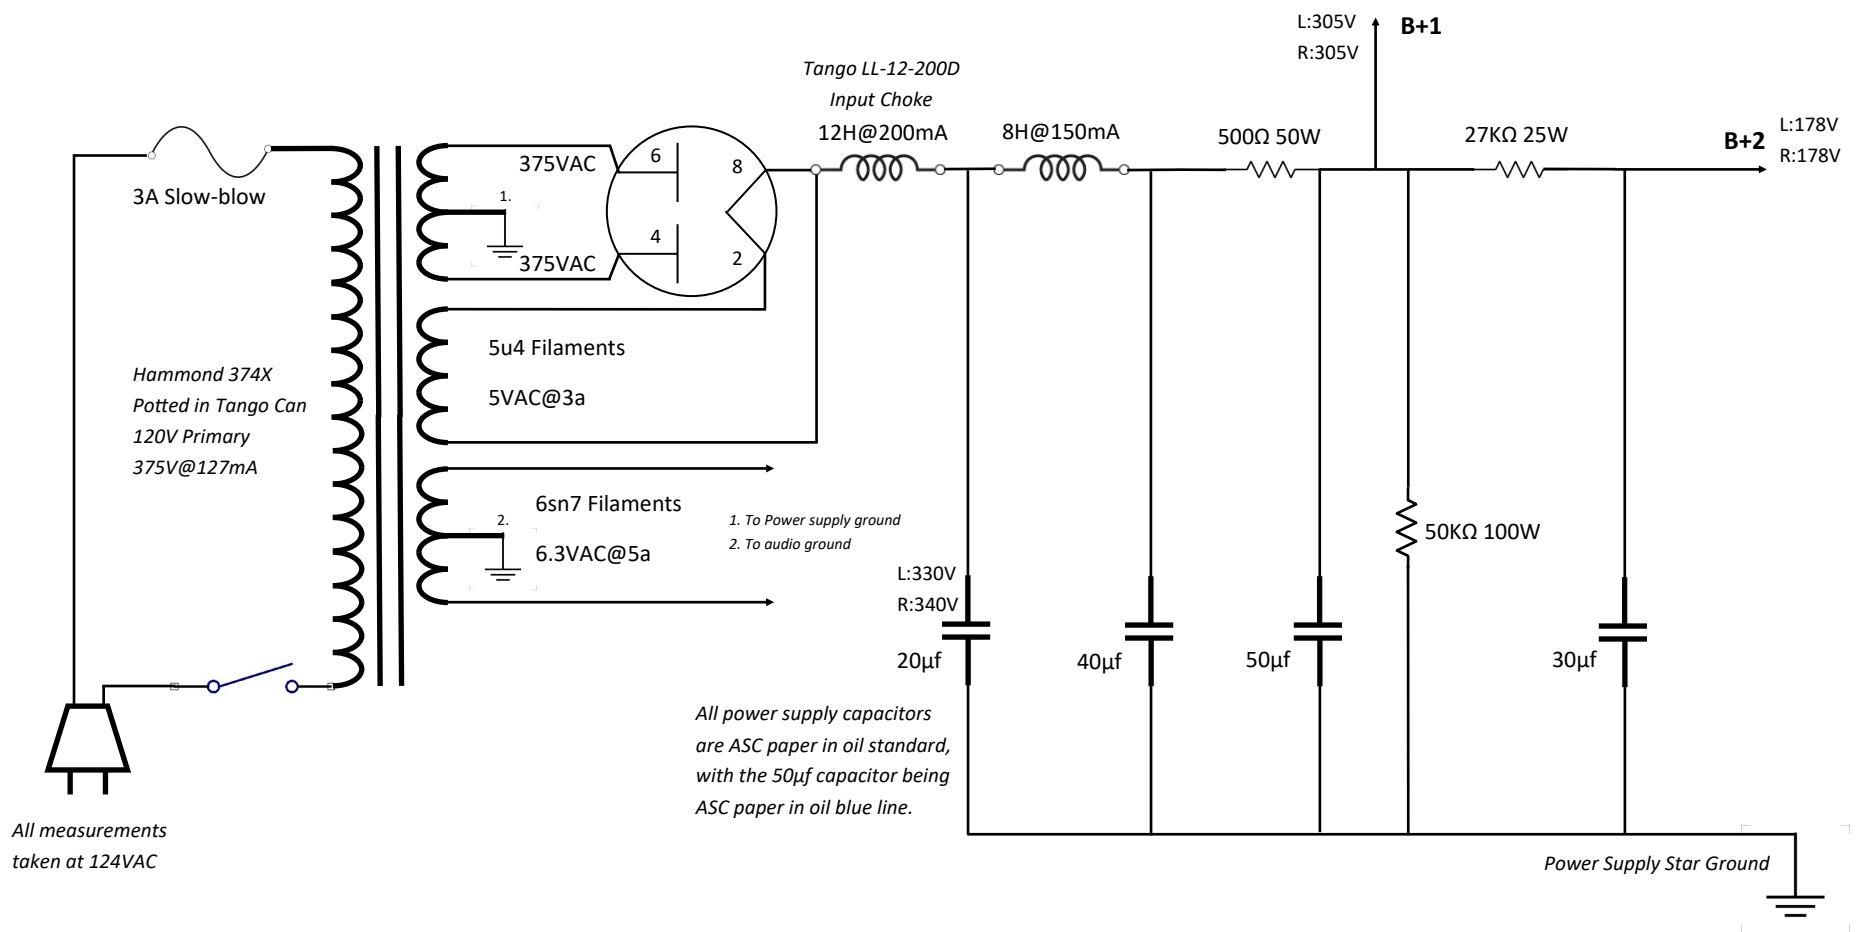

6sn7 .77watts@4.7mA  
2a3 13.0watts@51mA

#### Right Channel:

6sn7 .77watts@4.7mA  
2a3 13.2watts@52mA

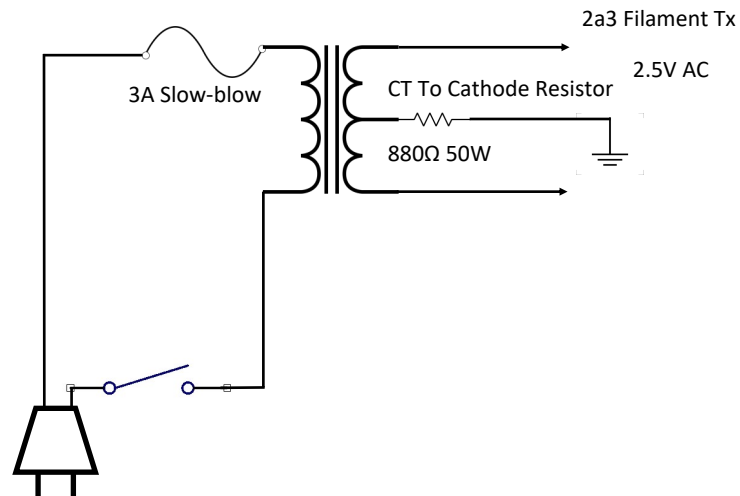

**Monoblock 2A3 Amplifiers - Spring 2021**

Audio circuit

All measurements  
taken at 124VAC

Star power supply ground and  
star audio ground connected  
together by one wire.
