

# NOTES:

Q1 & Q2 (IRF9610) where replaced by new JFet front-end, this includes R71 to R79, Q71 to Q76 and C71

R19 (56.2K) where replaced by VR1 [Bias Adjust]

R11 (221) where replaced by R65, R66 & VR2 [Offset Adjust]

R6 was R5 in the original schema, another R5 (on the GND input) was kept as is, no R6 was present in the original schema

Q6 to Q17 (IRF244) where replaced by IRFP240 parts

Q4 & Q5 (MPSA18) where replaced by ZTX450 parts like in Aleph 4 or Aleph 30 or Aleph 60

All other components or parts are the same as in the original schema

Aleph 2 with JFET Input

(c)Pass Labs / for DIY only
