

Circuit by  
Phil Rowley

## Terms Of Usage

- You are free to build and enjoy this amplifier design for any purpose as specified in the AX84 usage statement, including commercial manufacture.
- This design is a derivative of the AX84 P1. If you make any improvements or modifications to it, or derive any other designs directly from it, please share them back with the AX84 community in the same spirit that this design has been published for your benefit and enjoyment.
- If you would like to build this amp commercially, please first notify the project coordinator.
