### THE COYOT-A-PULT

Need to get there in a hurry? Always late to meals? Once again, we have come up with the solution to your sustenance problems by crossing medieval advancements with good old American know-how. THE COYOT-A-PULT can toss you over three canyons in less than five seconds--Fast enough to catch any roadrunner! Its rope has been braided for maximum tension--Perfect for launching any feral animal to new heights! And while no catapult can guarantee that it won't smash you face-down into the ground, THE COYOT-A-PULT has Nev-R-Smash™ built in to minimize that risk.
