

**Beyma 21 LEX 1600 Nd in sealed 125 litres (4.2 cubic feet)... Light weight (11.8Kg / 26lbs) but expensive.**

**If you have really good power amps.... This driver is good for continuous 115dB at 30Hz for synth bass DJ work, with 120dB to 126 dB peaks with bass guitar and drums for live sound.... 4 to 6 cabs per side will “move” the audience!**
