## WHOLESALE VALVE CATALOGUE JANUARY 2022 v1

[Page 4 lists our terms and abbreviations](#)

***PLEASE ENQUIRE ABOUT ANY TYPE NOT LISTED.***

***We list the more unusual types, without prices, in our Stocklist located  
via [www.tave.co.uk](http://www.tave.co.uk) home page, click on bottom left link Stocklist***

We have approximately 1 million valves in stock  
In the tube and valve business since 1981 and located at our Billingshurst UK warehouse since 1992

**Visitors to our premises by appointment only please.**

Most tubes & valves in our warehouse are NOT already tested as this is done after a  
**definite order is placed.**

If you would like to collect goods from our premises, please state specific items required  
**3 working days** before your pre-arranged visit, so that we can collect items from one of our  
buildings and carry out testing etc, thank you (we are closed Saturday and Sunday).

We like to help, but please understand that we are a wholesaler, not a retail shop.  
*Often we can improve on the 3 days mentioned above, if it's agreed in advance.*

**Important information including "HOW TO ORDER" on the last 10 pages of the catalogue.**

**[PLEASE READ](#)**

## **Billington Export Limited**

*From 1 January 2021, if you live in the European Union then you can order from us without paying VAT. VAT maybe charged by the Customs office in your own country. There is no duty to pay, if we ship from our warehouse in England to our valued clients in the European Union.*

**This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## The Company

Martin Billington and his father started trading in 1981 as Billington Valves selling valves and government surplus items such as Morse keys from his garage at home in Horsham. The business expanded and in 1989 he moved to a small factory unit in the nearby village of Bolney. The business continued to expand rapidly into overseas markets and in 1991 Billington Export was formed.

The premises at Bolney soon became restricted for the four members of staff and in 1992 Billington Export moved to the current premises at Billingshurst. 1994 saw the introduction of their own brands, "Thermionic" and "Billington Gold" and in 1995 the purchase of a second, two storey and freehold warehouse next door to the existing facility.

The computerised Stock Control system has been extended to include invoicing, sales analysis and catalogue preparation, which reflects Billington Export's positive approach to providing a fast and efficient service to its customers.

To meet customers' needs for rare and obsolete items, over one million valves, plus CRTs, magnetrons and sockets are now held in stock, including large quantities of Chinese and Russian items as well as famous old brands such as Mullard, GEC, Sylvania etc.

Most valves carry a "no fuss" guarantee. Statutory rights are unaffected [full details in back pages].

Billington Export's customers include amongst others; audio enthusiasts, audio shops, amplifier manufacturers, aviation establishments, government and military establishments. We have specialist test facilities on site as well as access to extra high power test facilities from outside consultants.

The Company's most valuable asset is its team of carefully chosen people who dedicate each working day to maintaining the high standards of quality and service for which Billington Export has become so well known.

**A. H. Billington**  
Senior Partner  
Retired 1991

**M. H. Billington**  
Managing Director 1981 to  
date

This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
**PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## INDEX OF TERMS AND ABBREVIATIONS

<b>ALTERNATIVES</b>	If we say, "An alternative to EF86", this does not mean it is an equivalent. If you are building equipment you might modify the circuit, socket, etc, (to adapt the circuit, to use the alternative cheaper tube, instead of rare and expensive "classic" UK/USA made tubes like EF86). If you're investing in tubes for future audio amplifier building, tubes described as "alternative" are lower cost, more plentiful and worth considering. Ask for free data, we can often help.
<b>Audio rectifier / audio triode</b>	Tubes that can be "adapted" for audio purposes. As tubes becomes scarcer, people are adapting low cost "non-audio tubes", to possess a good stock for the future. "Audio rectifier" means tubes that can be adapted for audio, although when first built, 40, 60 or 80 years ago, their primary function was non audio.
<b>Audio type</b>	These types are already established in amplifier use.
<b>BB</b>	BUBBLE BAG. Some used valves and Grade One valves costing less than GBP2.00, will now be supplied in bubble bags.
<b>BILLINGTON GOLD</b>	Tested within very tight limits and inspected for superior physical conformity. Guaranteed. A good reputation worldwide, especially amongst Asian audiophiles. Blue/red/gold original box. Statutory rights are unaffected.
<b>BP</b>	BULK PACKED. Valve is packed in "bulk pack" or "egg crate".
<b>Conditional guarantee</b>	GUARANTEE limited to that offered to us by the individual suppliers concerned. These suppliers usually give free of charge replacements in the unlikely event of any problems, depending on the technicalities of any returned item. Statutory rights are unaffected.
<b>GVT</b>	GOVERNMENT BOX.
<b>G1</b>	GRADE ONE BOX. Packed in our own attractive <b>Grade One</b> box and packaging.
<b>MIXED</b>	A random selection of good brands. If you wish to specify particular brands please add an extra GBP1.00 per valve for sorting.
<b>NOS</b>	NOS means "new old stock." Vintage made valves that are in new condition. NOS tubes are vintage manufacture, discontinued, rare and obsolete. New, yet old, hence NOS. 90 percent of our tubes are over 40 years old. If the original boxes "OB" have not survived the years, then we supply the valves in clean white boxes "WB". Our catalogue will show "OB" or "WB" accordingly. All of the above is standard practice throughout the valve industry. Statutory rights are unaffected. We want you to be satisfied. Unless specifically marked otherwise, all tubes carry our "no fuss" guarantee.
<b>OB</b>	ORIGINAL BOX – if denoted 'original box' we will supply to you in the manufacturer's old original individual boxes.
<b>POA</b>	PRICE ON APPLICATION - we might or might not have stock, please enquire.
<b>Potential audio type</b>	<ul style="list-style-type: none"> <li>* If you or your clients want to build audio amplifiers with fresh, innovative types of tube, then "potential audio types" are for you.</li> <li>* Our consultants have successfully built audio amplifiers with many of these types. Potential audio types are better value for money compared with "well-known" audio valves (such as ECC83, 300B, EL34, KT88 etc).</li> <li>* The advantage to you of these types is that for a lower cost you get a UK/USA made item. UK/USA are often expensive and very limited in quantity.</li> <li>* Potential audio types are available in good quantities, good quality and a low price.</li> <li>* Please refer to "audio rectifier." Further up this page.</li> </ul>
<b>PRICE</b>	All prices are in British Pounds Sterling (GBP). <b>Please contact us for confirmation and current quotation.</b> All items are offered subject to prior sale. Quantities available and prices vary. Unless specified otherwise all prices, including bulk offers eg 4 pieces @ GBP50, are for <b>one tube</b> .
<b>SIMILAR</b>	When we refer to a tube as being similar it means that the data is close to that of the original tube but the data/socket/pinout may be different. Please ask us for a data sheet, which should provide the necessary information. See also "similarities".
<b>SIMILARITIES</b>	When we refer to a tube as having similarities to another, this means that the data is fairly close to the original, but the data/socket/pinout may be significantly different, so the circuit may require modification. <i>If you're investing in tubes for future audio amplifier building, these UK/ USA made tubes are worth considering as there is a good supply of them at sensible prices, especially if new designs are being considered.</i>
<b>USED</b>	Ex-equipment/pulls, not new appearance but carefully tested, with clean appearance. With guarantee. Statutory rights are unaffected.
<b>WB</b>	Unless clearly stated as <b>Used</b> , white-boxed items are genuinely new, clean, with guarantee. NOS. Statutory rights are unaffected.

This catalogue lists our most popular lines but is not a complete listing of our stock. If you cannot find the item you want listed please ask as we may have it in stock.

**This catalogue is only a guide. All items are NOS unless stated.**  
**Prices are usually accurate, but please contact us to confirm final prices & quantities.**  
**PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## The Catalogue

Our aim is to provide top quality tubes at competitive prices, to our customers all over the world. We try to treat our customers as we would want to be treated.

WE have 1,000,000 tubes at our 2 UK warehouses, so if you need tubes for audio, industrial use, radio or other purposes, we most likely have it in stock.

Demand for audio tubes / valves continues to increase. We stock over one million rare and obsolete tubes and valves including brands such as Mullard / GEC / STC / Brimar and other classic brands such as RCA, Sylvania, Siemens, Telefunken, AEG, Tung-ram, RFT [Germany] and Tung-Sol, all of whom stopped manufacturing around 40 years ago.

We also stock sockets and top caps. Please refer to the socket section at the end of this catalogue. The quality of current production Chinese tubes and valves has greatly improved. We also stock Sovtek [Russia], Svetlana [Russia], JJ [Slovakia], Ei [Yugoslavia], Western Electric & KR Ent. [Czech Republic].

### This catalogue contains lists of:

Camera tubes

Klystrons

Magnetrons

Photomultipliers

Thyratrons

Transmitter Valves

Chinese, Russian and EI [former Yugoslavia] Valves, all types available, please enquire.

CV types

Industrial Valves

Magnetrons

RF Heating Valves

Travelling Wave Tubes

TR Cells

**Please ask for our separate catalogue of CRTs**

**Please telephone, fax or e-mail for prices and availability**

This catalogue gives only brief information, should you require any further details regarding any type not listed please do not hesitate to contact us. We have a constantly moving stock and new items are always becoming available.

**If you wish to visit, this needs to be arranged in advance with Martin Billington.**

**Please complete the form near the end of the catalogue and send to us before your visit, allowing at least 2-3 days for valve / tube preparation, thank you.**

**This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## Billington Gold

Long known as specialists in rare valves, Billington Export Ltd provides a line of premium grade valves to fill the increasing demand for hard-to-find valves!

**Billington Gold** valves are individually tested within very tight limits and inspected for superior physical conformity and mechanical construction.

**Billington Gold** valves make Valve Amplifiers sound better.

**Billington Gold** valves are:

- Selected from the best world-wide manufacturers with emphasis on the highest audio quality and product reliability.
- Selected for long life, low microphony and low noise.
- Guaranteed for 12 months from dispatch date. Statutory rights unaffected
- Supplied with original logo and in an attractive blue/red/gold original box.
- Gold plated pin versions are available.

**Billington Gold** valves have a good reputation world-wide especially amongst Asian audiophiles.

If your order consists ENTIRELY of **Billington Gold** items, then dispatch of your parcel will be faster than orders of other brands. Same day dispatch is sometimes possible on Billington Gold items.

This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
**PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## Grade One Valves You Can Rely On

**Grade One** valves are slightly used items of best physical appearance.

Unless stated otherwise they have small stains in the glass. Stains may also mean small imperfections to getter, base, etc.

OCCASIONALLY we have **Grade One** items with NO stains. These cost MORE THAN PRICES LISTED in this catalogue. Please enquire for prices.

In *all* cases **Grade One** items are individually tested to a *minimum* of **80 percent** emission [gm] and *minimum* of **80 percent** Ia. They are **guaranteed** and presented in attractive packaging. Statutory rights are unaffected.

Selected with the **audiophile** in mind.

Standard used valves sometimes have print missing making it hard to see the type number and brand logo.

**Grade One** valves always carry the type number and appropriate **logo** [**GEC, Mullard, Sylvania** etc.]

**Grade One** are superior in appearance and performance to usual used valves supplied by other companies.

Please refer to terms, conditions and guarantee section near the end of this catalogue.

This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
**PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

ECC81	<b>12AT7WA</b> National made in India. NOS tested guaranteed. We are told the Indian factory used Mullard UK technology and tools. The appearance is very similar to Mullard UK single suture. Excerpts from the Effectrode website, in England... <i>"Mullard's empire had a long and mighty reach. Not only did they build advanced tube manufacturing facilities in in Great Britain, but also set up tube plants overseas in Holland, France, Australia (Philips Miniwatt,) and India (Bangalore). These 'foreign made' tubes were manufactured utilising Dutch Philips/Mullard British-supplied tooling and expertise, which meant these tubes were physically identical to their British made counterparts, they had the same shaped anode plates, support micas, the same seamed glass envelope, the same spot welding, same grid wire spacing and, most importantly, the same cathode chemistry and processing.</i> <i>The Bharat Electronics Limited plant in Bangalore India was set up in collaboration with Thompson CSF, France, during 1954 in the early days, components, such as plates, micas etc were shipped to the factory in Bangalore, India from Philips/Mullard in Europe."</i>	Red OB	10.00 60 @ 8.00

<b>ECC83</b>	Tungram Hungary made in 1960s or 1970s with yellow print.	OB/WB	37.00
<b>ECC83</b>	Please refer to 5755 Western Electric USA made for low cost alternative, not equivalent. 5755 is very similar to ECC83, both are B9A base, but the pin out varies. We have several hundred 5755. Data ECC83: Vf=6,3V, If=300Ma, Va=250, Ik=1, S=1,6, Pa=2x1 Data 5755: Vf=6,3V, If=300Ma, Va=200, Ik=3, S=1,6, Pa=2x1		
<b>ECC83</b>	Please refer to <b>6F5GT</b> for possible alternative, not equivalent. 6F5GT is octal based and roughly equivalent to half an ECC83. Refer to data provided.		
<b>ECC83</b>	Equivalent to <b>5751, CV4004, 12AX7WA.</b>		
<b>ECC83 / 6EU8</b>	Please refer to 6EU8 for possible alternative, not equivalent.		
<b>ECC83 / 6N2P-6H2pi</b>	These are Chinese new 6N2J. Equivalent to 6N2P-EV and 6H2pi Russian. Clean uniform guarantee. These 6N2J are similar to, but not equivalent to ECC83, but with different pin out. They are double triodes. Heater is 6.3vf. The triodes work in series only from pins 4 and 5. The triodes cannot be operated independently of each other as they are in series only, because there's no centre filament tap at pin 9 as in ECC83. Deduct 25p if you accept without box. Data in block 345 [page 490] of Vade Mecum. <a href="http://www.frank.pocnet.net/sheets65.html">www.frank.pocnet.net/sheets65.html</a> and look for the 6N2 section. ## TOROIDAL TRANSFORMERS

Advantages of toroidal transformers for audio amplifiers

They are highly efficient which allows them to be conservatively rated without causing size or weight problems.

There are no loose laminations or air gaps in the design. This, together with the absence of any external field, makes the toroidal transformer very suitable for audio amplifiers where electrical and mechanical noise must be avoided.

OUR REFERENCE	AMPLINO CODE	COMMENT	BOX	£ GBP price each
COMPMT101	XA261	Toroidal power transformer for audio amplifiers, made by Amplimo in Holland to EN61558 121VA. Diameter 98mm / Height 48mm / weight 1.4kg Primary 2 x 115V Secondaries 300V/310Ma; 6.3V/4A; 10V/0.1A; 20V/0.1A Data sheet & photo available on request	OB	42.40 15 @ 35.00

# Billington Export Limited

## BILLINGTON GOLD ITEMS

Long known as specialists in rare tube brands, Billington Export provides a line of premium-grade valves to fill the increasing demand for hard-to-find tubes! BILLINGTON GOLD valves are selected from the best worldwide manufacturers with emphasis on the highest audio quality and product reliability. They are individually tested within very tight limits and inspected for superior physical conformity and mechanical construction. Guaranteed. They have a good reputation worldwide, especially amongst Asian audiophiles. Supplied in an attractive blue/red/gold original box

## ADDITIONAL TESTING

Should you require specialised testing we are happy to provide this service, prices as below:

## MATCHED SET TESTING

Available on request. We can test new valves into pairs, quartets, octets etc. This test involves all valves in the match being within 10 percent of one another on anode current and gm.

Matched pairs: GBP2.70 per anode TRADE, or GBP4.00 per anode RETAIL.

Matched quads, triplets, sextet, etc: GBP5.00 per anode TRADE, or GBP7.50 per anode RETAIL.

Matched pair testing is "subject to availability". To make 1 match pair we need 10 or 20 tubes of the same brand & appearance. If we have, for example, 5 of one brand, the chance of a match pair from 5 pieces is very unlikely.

## STOCKLIST

We do not have all of our stock listed in our catalogue, therefore please visit our website at [www.tave.co.uk](http://www.tave.co.uk) and find the free download called **Stocklist** on the bottom left hand side.

The list is not 100% accurate as we hold so much stock, but it gives you a good idea. Quantities vary from a single piece to many thousands, depending on the type.

Please contact our sales office who will be very happy to supply details of quantities, brands and prices.

This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
**PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## IMPORTANT – Valve / Tube Collection

If you wish to collect valves or tubes from us, please order them 2 or 3 days in advance, using this order form.

That will give us time to collect them from one of our buildings and undertake necessary testing, boxes, etc.

We like to be friendly and helpful but we are a very busy export warehouse, not a “walk around” retail shop, thank you.

## IMPORTANT - Please Read

### PRICE MATCHING

Our prices are extremely competitive. For orders over GBP400 we will try to match any price from our rivals.

For price matching, prices must be from a named dealer and their valves/tubes must be of the same quality, have the same guarantee and the valve must actually be in their stock at that price.

“Part time dealers”, who have 2 or 3 pieces of mixed appearance, do not count for price matching. Please contact us to discuss.

### RESERVED ORDERS

We do not usually “reserve” goods. Our policy is that reservation of stock is done on a case-by-case basis. We sometimes reserve goods for a maximum of 6 weeks. After 6 weeks we will write and expect your confirmation of order and payment or shipping instructions within two weeks. Failing this, your goods may be returned to stock and offered for sale elsewhere.

### DELIVERY

Unless stated ‘available’ all items are in stock. Please allow 3 working days from receipt of your order for despatch. We need this time to collect goods from our other premises and arrange testing, etc.

Please allow for any delays by post, customs, etc. Despatch is usually quicker than 7 days and we will try to help if you have urgent requirements.

### GENERAL INFORMATION

We have a constantly moving stock and new items are always becoming available. We specialise in European and American manufactured types, including obsolete. We export all over the world, therefore we are familiar with the requirements of audio customers regarding brands etc. Please advise us of your requirements, we will try to help.

### ALL ITEMS ARE OFFERED SUBJECT TO PRIOR SALE.

#### PLEASE NOTE:

Some details may be subject to change due to the market fluctuation.

Please ask our Sales staff for an up-to-date stock position and full quotation.

### ALL ITEMS...

Are accurately described regarding country of manufacture etc.

Are checked to ensure uniform and clean appearance throughout the batch, unless otherwise stated.

Are NOS unless stated as Used or Grade One. Except ‘new’ items made in China, Russia or Slovakia.

**This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## COOLING OFF PERIOD – Return of Non Faulty Goods

Return of non-faulty goods within 14 days of receipt. (Only for private consumers).

The following 14 day 'cooling off period' only applies if you are a private consumer, not a trader.

A trader means someone who is buying tubes for purposes relating to your trade, business, craft or profession".

You have a 14 calendar day cooling off period to return a valve from the date you received it, to be eligible for a refund.

Your valve must be unused and returned in the same condition that you received it. Your valve must be in the original packaging. Your valve needs to have the receipt or proof of purchase. A full refund will be provided.

You will be responsible for paying for your own carriage costs for returning your item.

If you wish to use this 14 day cancellation period, please contact us for information. A "standard template for cancellation" will be made available from our website soon.

## COOLING OFF PERIOD – Return of Faulty Goods

After 14 days, in the unlikely event of faulty goods you may return them under the guarantee mentioned elsewhere in this catalogue. Valves that are tested, at our facility, as faulty, will be replaced like for like. In the event that a suitable replacement is not available, an alternative or refund will be provided.

## REFUNDS

Once a refund is authorised as per conditions stated above, we will refund your debit/credit card (your original method of payment). We will issue the credit within two working days. Depending on your method of payment, you should receive the credit soon after.

The costs of the original postage will be refunded but the consumer will be required to fund the cost of the return postage.

During 35 years of trading we've had very few items returned, and thousands of satisfied clients.

## STATUTORY RIGHTS

Statutory rights etc. Guarantees etc referred else to elsewhere in this document are in addition to, and does not affect, your legal rights in relation to the goods that are faulty or not as described. Advice about your legal rights is available from your local Citizens' Advice Bureau or Trading Standards office. For more information about cooling off periods etc, please refer to the Terms and Conditions section on our website.

## GUARANTEE

For a few items in this catalogue, we incorrectly use the word "warranty". The correct word is actually "guarantee". For more information about our guarantee terms and conditions, please refer to the paragraph below, **RETURNS**.

## UPDATES

This catalogue consists of over 5,000 items. We go to a lot of time and trouble to keep this catalogue up to-date, however, it's impossible to be 100 percent perfect as we buy and sell valves and tubes every day.

Most of the items we sell are 40, 50 or 60 years old and no longer made today. If the catalogue says "POA" or words such as "when available", this means sometimes we have stock and sometimes we do not. As stated at the end of each catalogue page, "please enquire for current quotation". The best thing to do is to email us.

**This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## TECHNICAL INFORMATION PROVIDED IN THE CATALOGUE

We will advise where possible, but data etc provided in the catalogue assumes that you are an EXPERIENCED ELECTRONIC TECHNICIAN.

Please note that several different people have provided us technical data (mainly more than 10 years ago). You are free to use this data as a free gift, in good faith, if you are an EXPERIENCED ELECTRONIC TECHNICIAN, to study and aid development of YOUR OWN IDEAS.

Data provided in the catalogue is believed to be good quality and correct but we don't accept responsibility for the results.

The data you see in the catalogue is therefore intended to be a GUIDE ONLY - not step-by-step instructions. We try to be helpful but advice, available by email only, is limited. We cannot usually advise about valve data by telephone.

## IMPORTANT – Please Read

This is a **WHOLESALE** catalogue.

All items are in GBP (British Pounds Sterling), unless stated otherwise. Orders over GBP240 attract WHOLESALE prices.

## HOW TO ORDER

The best way to order is to email us a list of your requirements. Our second preference is fax or phone. We will “talk you through” the process. You will talk to a helpful person in our small, **specialist** office, not a computer or call centre! On average parcel despatch is 7 days after order. If your needs are genuinely urgent, please let us know, we always try to help. We have 1,000,000 tubes and valves. Please enquire re any type not listed.

## MINIMUM ORDERS

Our usual minimum order is GBP 50. We will try to accommodate requests for orders under GBP50, but over GBP 20 plus VAT plus post, providing:

- The order request is completed in no more than three short communications by phone or email.
- The order isn't complicated in terms of testing, or other finishing.
- Delivery maybe up to 10 days.

Orders over GBP50 welcome and detailed testing etc can be arranged. Orders, between GBP20 and GBP50. Please contact us, and we will try to help. See above

**This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## PLEASE ADD 50 PERCENT TO ORDERS UNDER GBP240.

To qualify for the WHOLESale prices in this catalogue you must spend GBP240 + VAT + post.

## POSTAGE & PACKAGING

Unless stated 'available' all items are in stock. Please allow 7 days from receipt of your order, for despatch. We need this time to collect goods from our other premises and arrange testing, etc.

Please allow for any delays by post, customs, etc.  
Despatch is usually quicker than 7 days and we will try to help if you have urgent requirements.

We are happy to ship your order to almost anywhere on this planet. Other planets on request!

## UK

GBP 5.00 minimum. Postage and packaging.  
We will be pleased to quote postage etc on receipt of your final order requirements.  
GBP 15.00 FOR 24 HOUR COURIER SERVICE IF REQUIRED.

## EXPORT

GBP 5.00 minimum. Postage and packaging are charged at cost, we will be pleased to quote postage cost on receipt of your final order requirements.  
The "Signed on Delivery Service", which is an extra GBP 4.00, is now compulsory for all overseas parcels.  
COURIER SERVICE is available if required.

## VAT

UK - please add VAT to all prices shown in this catalogue. Currently 20 percent.

EEC - All EEC sales will be zero rated for UK VAT but may incur import charges and/or VAT when entering the destination country.  
Please do not add VAT when ordering from us because you may be charged VAT and duty when the parcel reaches customs in your country.

## METHODS OF PAYMENT

Payment may be made by Bank wire transfer TT, cheque in GBP Sterling with UK clearing facilities, credit card, debit card or PayPal with a fee.

VISA/MASTERCARD welcome.  
SWITCH and DELTA debit cards accepted - no administration charge.  
You can pay by credit card, using the PayPal website, even if you don't have a PayPal account. Please contact our sales office for details

We will advise customers of our bank details.  
SWITCH and DELTA debit cards accepted - no administration charge.

IF PAYING BY BANK WIRE TRANSFER TT– admin charge of 10.00 GBP.  
We will advise customers of our bank details.

**This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**

# Billington Export Limited

## RETURNS

If you wish to return any items to us for any reason, please contact us for returns authorisation.

All items are guaranteed 90 days from dispatch unless otherwise stated. A few items, eg Billington Gold, are guaranteed for 12 months. Your statutory rights are unaffected.

Please test your purchases upon receipt, even if the items are for future use. The guarantee runs for 90 days, or 12 months (as specified) from the date of dispatch. For the guarantee to be valid, we (Billington Export Ltd) must be in receipt of the items within the specified guarantee period. The guarantee does not run from the date you plug the items into your equipment.

## DEALERS

We suggest you test all valves & tubes on receipt. Our guarantee does not extend beyond you, and ends when you resell the item.

## CURRENCY

This catalogue and all our lists, quotes, websites etc are in GBP - British Pounds Sterling, unless stated otherwise.

Visitors to our premises by appointment only please.

Most tubes & valves in our warehouse are NOT tested. Testing is done after a definite order is placed.

We are a wholesaler, not a retail shop. We like to help, but please understand.

If you want to collect goods from our premises, please state specific items required 3 working days\*\* before your visit, so that we can collect items from one of our buildings and carry out testing etc.

Sometimes we can improve on the 3 days mentioned above, if it's agreed in advance, by email.

\*\*Saturday and Sunday aren't working days for us.

We are one of the largest valve dealers in Europe, holding 1 million valves stored at three sites totalling around 10,000 sq. ft. We know you will understand that in order to keep our mail order service fast and efficient we cannot accept unscheduled visitors.

This catalogue lists our most popular lines but is not a complete listing of our stock.

If you cannot find the item you want listed please ask as we may have it in stock.

Your co-operation is greatly appreciated. Thank you.

**Our aim is always to provide a friendly, helpful and honest service.**

**This catalogue is only a guide. All items are NOS unless stated.  
Prices are usually accurate, but please contact us to confirm final prices & quantities.  
PLEASE ADD 50 PERCENT RETAIL SURCHARGE FOR ORDERS UNDER GBP240.**
