

DT-25N - HiFi Dome Tweeter

NEODYMIUM tweeters with excellent sound qualities at a sensational low price. The silk soft dome cone with optimized geometry is surrounded by a specially adapted front plate, which enables a particularly linear reproduction even at lower frequencies and a high efficiency at the same time.

Neodymium hi-fi tweeter, 80WMAX, 8 Ohm A tweeter of a particularly elegant design. Low magnetic dispersion and mechanically very compact due to the application of a high-performance neodymium magnet. Ideally suited for building smaller systems of all kinds, but also for the use in standing hi-fi speakers of high quality, e.g. in D'Appolito arrangements. A particular fine reproduction and natural sound. **HOBBY HiFi 01/2008** "This speaker impresses by a well-balanced, linear and a surprisingly wide bandwidth. Perfect!" **HiFi-Selbstbau, Online magazine 2008** "The DT-25N is a sophisticated tweeter of compact size. The frequency response is perfect up to 8kHz. The favourable price is an advantage, too."

Technical data

Impedance (Z)	: 8 Ohm
Resonant frequency (fs)	: 1,600Hz
Max. frequency range	: fx-20,000Hz
Rec. crossover freq. (12dB)	: 2,500Hz
Music power	: 80W _{MAX}
Power rating	: 40W _{RMS}
SPL (1W/m)	: 95dB
Voice coil diameter	: 25mm
Magnet diameter	: 33mm
Mounting cutout	: Ø 46mm
Mounting depth	: 21mm
Dimensions	: Ø 66mm
Weight	: 70g
