

Folded Horn Acoustic Guitar - New Horn Length and Port 7-19-24

Second guitar body has the same horn mouth as the first guitar body.

Third guitar body can have updated horn mouth if desired.

Folded Horn Acoustic Guitar - New Horn Length and Port 7-19-24

Third guitar body can have updated horn mouth approx. as shown with blue tape only. This would slightly reduce the horn length, and also create a port closer to the guitar player.

Area of horn mouth would not change, but shape could affect sound in unknown ways. Testing required!
