## REK-O-KUT TURNTABLES

The function of the turntable is to provide unwavering, quiet rotation of the record to afford maximum reproduction fidelity. The engineering specifications required to obtain these qualities are not always within the reach of all who attempt to build turntables. These arts and skills are only acquired through long years of specialized production experience enjoyed by Rek-O-Kut alone. Rek-O-Kut Rondine 12-inch turntables are internally rim-driven and employ a minimum of internal parts, to achieve the advantage of mechanical simplicity. Cast from an aluminum alloy with special resonant-inhibiting properties, the turntables exert no "pull" on magnetic cartridges. They are precisely lathe-turned and feature extra-heavy rims to provide flywheel action. Also, Rek-O-Kut's unique self-lubricating ball-bearing suspension of the turntable shaft achieves the closest approach to friction-free motion. Beneath these fine turntables lie the proudest phono motors ever made . . . custom-built to rigid Rek-O-Kut specifications and test-checked before, during and after assembly. The results of this incomparable engineering will be yours to enjoy when you hear a "live" demonstration of a Rondine Turntable at your High Fidelity dealer. And you are assured that this same matchless performance will *be yours year after year*. This is what makes Rek-O-Kut Rondine Turntables your best buy.

## DELUXE

### Model B-12H

### 3-Speed

Meet Rondine Deluxe . . . aristocrat of all Rondine Turntables! Here is the ultimate in turntable design, construction and lasting quality performance. Powered by Rek-O-Kut's famous hysteresis synchronous motor — rumble, wow and flutter are virtually non-existent. Sweeping innovations in functional appearance—brush-chromed speed selector, handsome gray-toned deck and maroon ribbed rubber record mat — will please those with an eye for beauty.

with hysteresis  
synchronous motor

#### SPECIFICATIONS:

**NOISE LEVEL:** 55 db below average recording level.

**WOW:** Better than NARTB specification of  $\pm 2/10$  of 1%.

**MOTOR:** New type, custom-built hysteresis synchronous—self lubricating

**SPEEDS:** 33 $\frac{1}{3}$ , 45 and 78 rpm.

**SPEED SELECTION:** Single selector-knob. "Off" positions adjacent to each speed permits turntable to be shut off and disengaged without passing through other speeds. Built-in compensation adjustment for slight speed variation.

**STROBE DISC:** Permanently affixed 3-speed strobe disc for instantaneous speed checking.

**45 RPM HUB:** Built-in, retractable hub for 45 rpm records. Requires no external adapter.

**PILOT LIGHT:** Flush mounted neon jewel acts as "on/off" indicator.

**DECK:** Pre-drilled and tapped for instant installation of the Rek-O-Kut Model A-120 Turntable Arm. Cross-ribbed, cast aluminum. Permits flush-mounting in a rectangular cut-out.

**FINISH:** Silvertone aluminum.

**DIMENSIONS:** 15 $\frac{3}{4}$ " x 14", Height above deck: 1 $\frac{1}{2}$ ". Depth below deck: 6 $\frac{1}{2}$ "

**SHIPPING WEIGHT:** 19 pounds.

**\$129<sup>95</sup>** Zone 2, \$131.95

with custom-crafted  
induction 4-pole motor

# Rondine\*

**Model B-12**

**3-speed**

The Rondine is for those who seek all of the high qualities in a turntable — at moderate cost. Its specifications are the same as those for the Rondine Deluxe with these exceptions; smooth, quiet power is supplied by a custom-crafted 4-pole induction motor built to Rek-O-Kut specifications. Noise level exceeds 45 db below average recording level. WOW is better than NARTB specifications of  $\pm 2/10$  of 1%. Shipping weight is 19 pounds. **\$84.95** Zone 2: \$86.95

# Rondine\* JR.

**2-Speed**

**Model L-34** — 33 $\frac{1}{3}$  & 45 rpm

**Model L-37** — 33 $\frac{1}{3}$  & 78 rpm

For some time, there has been the expressed desire for a high quality turntable which would provide only the two currently popular speeds. This demand arose particularly among the newcomers to high fidelity who find that they can fill all of their music requirements with either 33 $\frac{1}{3}$  and 45 rpm records or 33 $\frac{1}{3}$  and 78 rpm records. In considering this need, Rek-O-Kut realized that the exclusion of one speed would further simplify some design and construction procedures to effect cost savings without any sacrifice of quality. The result is the Rondine, Jr. . . . worthy indeed of the Rek-O-Kut name.

**SPECIFICATIONS:**

**NOISE LEVEL:** 40 db below average recording level.

**WOW:**  $\pm 2\frac{1}{2}$  of 1%.

**MOTOR:** Induction—4-pole—built to Rek-O-Kut specifications.

**SPEED SELECTION:** Slide shift with intermediate "off." Locks in any position.

**STROBE DISC:** Permanently affixed 2-speed strobe disc for instantaneous speed checking.

**45 RPM HUB:** Built-in, retractable hub for 45 rpm records on Model L-34 only. Requires no external adapter.

**DECK:** Heavy gauge steel plate. **FINISH:** Silvertone aluminum

**DIMENSIONS:** 12" x 15". Height above deck: 1 $\frac{3}{4}$ ". Depth below deck: 5".

**SHIPPING WEIGHT:** 15 pounds. **\$59.95** Zone 2: \$61.95

## TURNTABLE BASES for 12" and 16" ARMS

The Rek-O-Kut Base conveys to its owner the very personality of his equipment. Styling is simple and dignified . . . handsomely finished to a soft satin lustre.

Installing a Rek-O-Kut turntable into this base takes but a few moments. Just place the turntable deck in the recessed cut-out ledge of the base and tighten several screws. It's that simple. The base rests on 4 rubber isolation mounts to insulate the base from external vibrations.

A choice of 3/4" Walnut or Blonde finish to harmonize with existing decor is available.

### Bases

#### For B-12 and B-12H with S-120 12" ARM

Model RW, Walnut ..... **\$26.95** (Zone 2: \$28.50)

Model RK, Blonde ..... **\$28.95** (Zone 2: \$30.50)

Dimensions: 16 3/4" x 17" x 6"

### Bases

#### For B-12 and B-12H with S-160 16" ARM

Model RW-16, Walnut ..... **\$32.95** (Zone 2: \$34.50)

Model RK-16, Blonde, ..... **\$35.95** (Zone 2: \$37.50)

Dimensions: 21" x 17 1/2" x 6"

### Bases

#### For L-34, L-37, and LP-743 with S-120 12" ARM

Model LW, Walnut ..... **\$26.95** (Zone 2: \$28.50)

Model LK, Blonde ..... **\$28.95** (Zone 2: \$30.50)

Dimensions: 16 3/4" x 17" x 4 1/2"

## ROLL-OUT PLATFORM

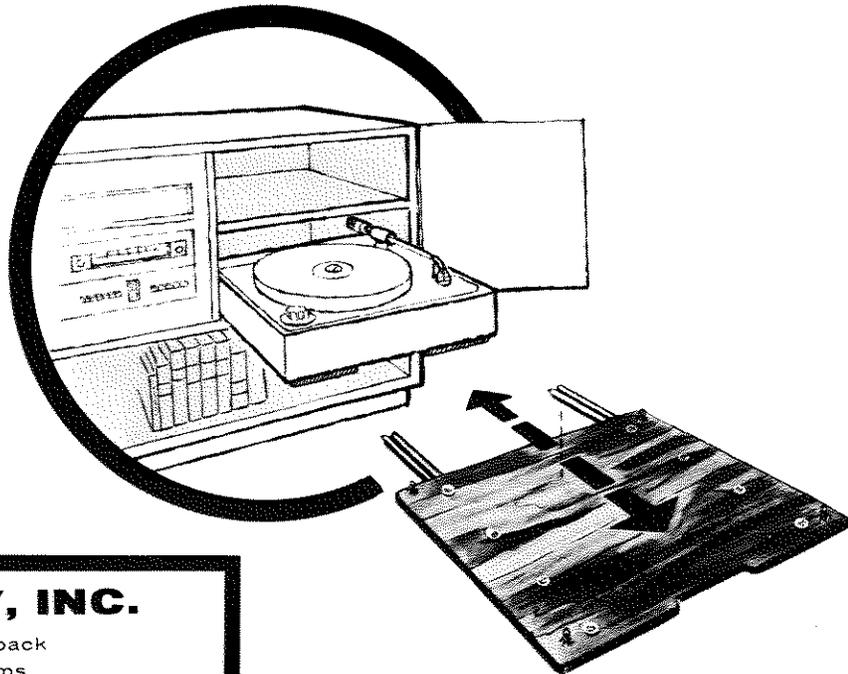

As vital as it is to provide high quality equipment, it is just as important to make this equipment easy to use. The new Roll-Out Platform is the perfect answer to greater convenience for your installation. With the Roll-Out Platform, you can install your Rondine base in a cabinet within a matter of only a few minutes. There is no carpentry work involved. Constructed of walnut-colored 3/8" laminated board to which are attached two steel, ball bearing roll-out sliders.

**Model ROP-12 \$795**

Zone 2: \$8.75

**Model ROP-16 \$995**

Zone 2: \$10.95
