

Too short to be an ML-TL, but long enough that no longer strictly a Bass Reflex

- Notes:
- 0/ drawn with 15mm material, quality plywood recommended. 12mm OK. Adjust build dimensions for material thickness deviations
 - 1/ stuff with polyfill 0.5lbs ft³ uniform density throughout box (22g | 0.78 oz)
 - 2/ open up back of the driver cutout
 - 3/ mirror image vents

alternate vent is 10mm high, width of box
