

1. Resistor values are indicated in ohm (K: 1000-ohms, M: 1000k ohms). Non specified resistors are 1/4W, and  $\pm 5\%$ .  
2. Capacitor values are in  $\mu F$  (1P =  $\mu\mu F$  = pF =  $10^{-12} \times F$ ,  $\mu F$   $10^{-6} \times F$ ). Non specified capacitors are 50WV.  
3. Inductance values are in Henry.
