

fill-piece added so bevel size on front can be increased (their volume calced in, but a small increase in change wouldn't hurt)

#### Notes:

o/ made with 12 mm baltic birch plywood (15mm front baffle)

1/ line with wool felt, cotton felt, or fiberglass or lightly fill with polyfluff or teased wool

This dimension should be more determined in the field... the brace should be tight against the magnet of the driver, but not so much that it stresses the basket... small paper shims can be used if necessary.
