

2X15 SW

CARACTERISTICI

Putere nominala	1000W RMS
Putere muzicala	2000W Program
Impedanta	4 Ohm
Sensibilitate (1W@1m)	102dB
Volum net al cutiei	225L
Vrecventa de acordaj	70Hz
Banda frecvente	40Hz ---- 120Hz@-6dB

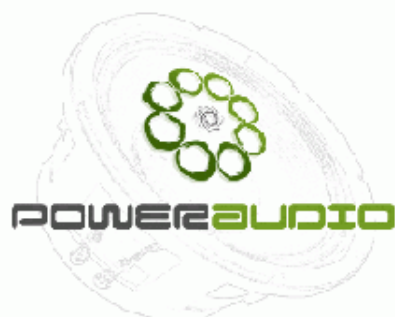

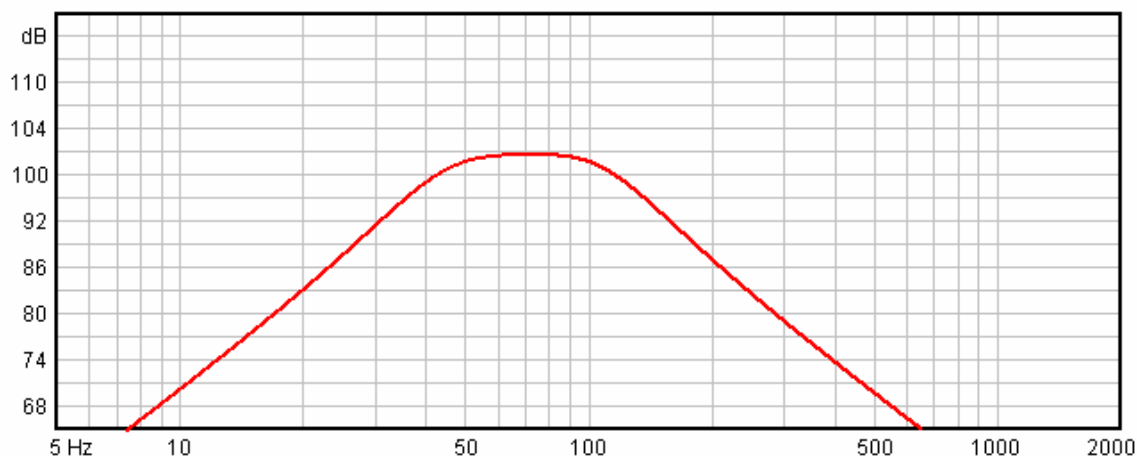

CABINET

Material	PAL / MDF
Grosime material	18mm
Material fonoabsorbant	BURETE / VATELINA
Cantitate material fonoabsorbant	

COMPONENTE

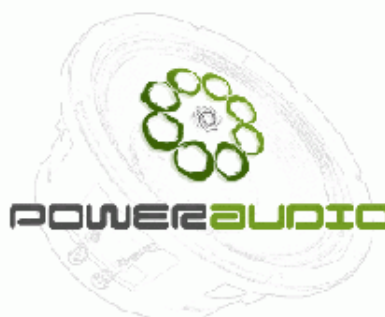

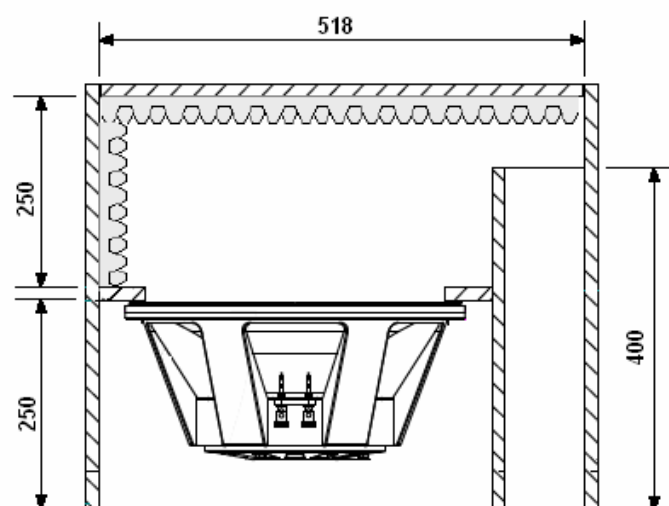

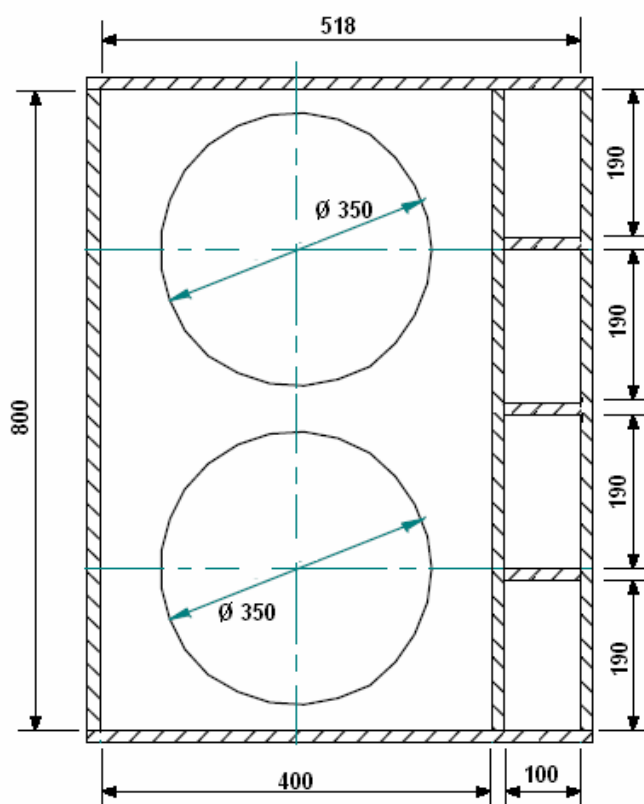

2 X P.Audio C15 400B

RASPUNS IN FRECVENTA (1W/1m)

Seria de documente "CONSTRUCTOR'S SERIES" are intentia de a fi un ghid in realizarea de incinte acustice folosind difuzoare si subansamble comercializate de firma noastra. Fiecare plan propus spre realizare a fost conceput pentru a obtine performante optime de la componentele recomandate . Ghidul de constructie si schitele prezentate in aceste documente contin suficiente informatii pt a permite oricarei persoane sa-si realizeze propriile incinte acustice.

Ca o alternativa , contactati **POWERAUDIO** pentru a va recomanda constructori experimentati pt realizarea acestor proiecte. Proiecte pentru alte incinte sunt disponibile la cerere.
