# DSD'it for Amanero

This SRC is for high quality PCM to DSD256 conversion.

Designed for Amanero slave operation with external MCLK 49.152/45.1584Mhz.

If external MCLK 24.576/22.5792Mhz:

For Amanero in master mode, solder jumper. And don't install U3 on the botton side. (work in master mode has not been tested)
