

Round Table Recording Company

Control Room

The **Diamond Room** (Studio A) is our largest studio in the Indianapolis complex with over **1,600 sq. ft. of creative space**. Featuring a spacious control room with a large format console, Ocean Way main monitors, a massive sight line to the live room, and a producers desk. The **Audient ASP8024 Heritage Edition console** with built-in **Slate Raven MTi2** gives us the best of both analog and digital audio. The **live room** is capable of recording almost anything you can imagine—from a live band to a full string section. There are also **three ISO booths** with full sight lines as well as a Piano Room that features our **Yamaha C7 grand piano**.
