

- Modifications from FirstWatt F3:
- 1) R19 reduced from 47K to 33K
 - 2) C7b added
 - 3) supply GND separated from signal GND
 - 4) C1 reduced from 15,000uF to 10,000uF
 - 5) -TWEETER output added

Thanks to Nelson Pass, who also generously donated the Lovoltech JFETs for this project.
