

Product Description:

This TC family 3.5 inch 8 ohm full-range driver, with ferrite magnet, paper cone and rubber surround, and damped plastic basket, is designed to be a cost-effective high performance full range driver. The cone utilizes Tymphany-patented PentaCut NRSC cone technology to help dampen and control cone resonances, optimizing the listening experience. The motor contains a copper cap to lower inductance and distortion. The product was designed with television and other compact applications in mind.
