

Output impedance may be selected to 4, 8 or 16 ohms by moving this wire to the appropriate tap.

All resistors metal film except those designated:

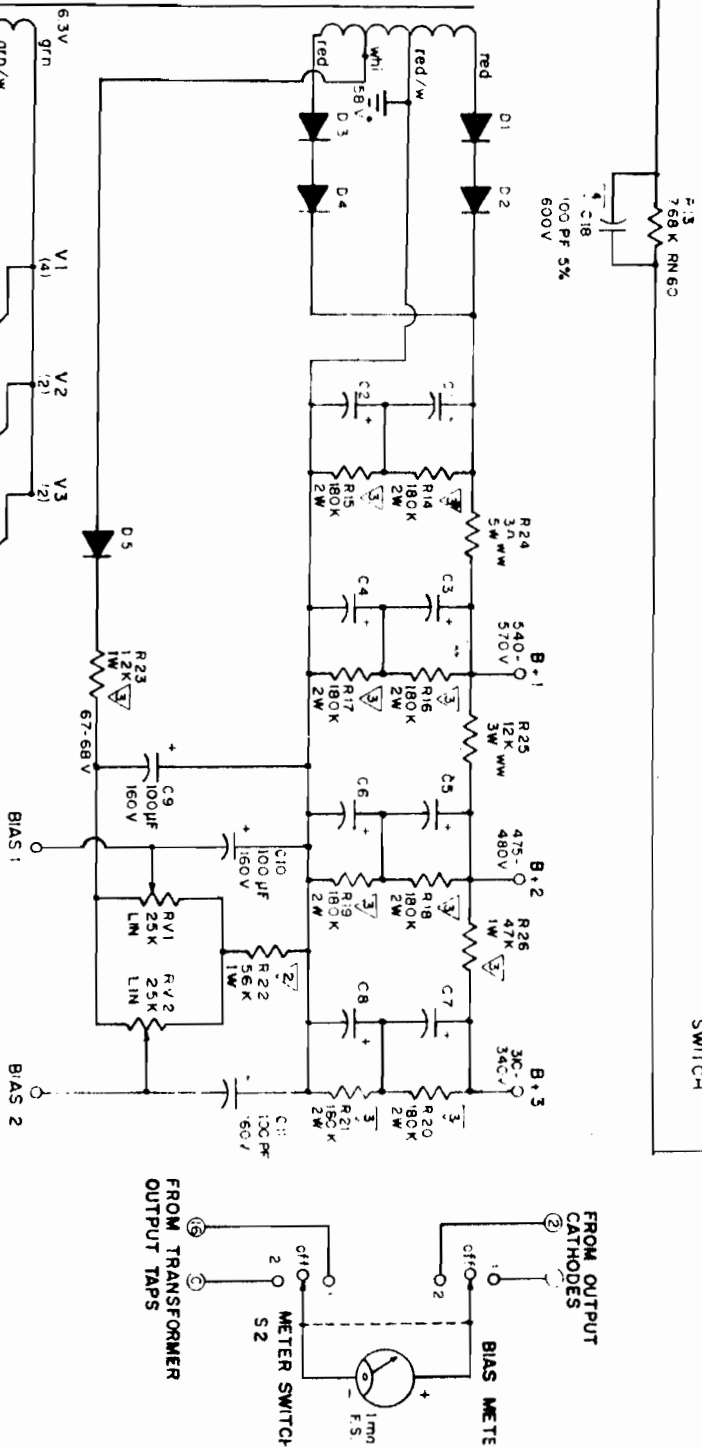

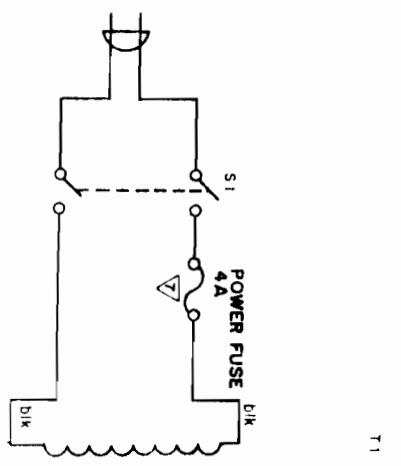

- Carbon Composition
- Carbon Film

All capacitors are aluminum electrolytic except those designated:

- Dipped Mica
- Metalized Polycarbonate

Note: D1-D5 = 1N4006  
C1-C8 = 600µF, 360V

Primary wiring and fuse may vary in your area. See Owner's Manual.
