

Wharfedale

ACHROMATIC
W70D

**4-WAY DELUXE SPEAKER
SYSTEM IN EXCLUSIVE
SAND-FILLED ENCLOSURE**

SPECIFICATIONS

Speaker: Full four-way

Woofer, 12" high compliance, low resonance;

Upper bass/lower midrange, 8" heavy duty;

Upper midrange, 5" acoustically isolated, heavy duty;

Tweeter, 3" heavy duty omnidirectional pressure dome

Crossover Points:

Lower midrange, 175 Hz (mechanical);

Upper midrange, 1250 Hz;

Treble, 3500 Hz

Controls: Wire, wound, continuous midrange and treble controls

Frequency Response: 25 to 20,000 Hz

Power Handling Capacity: 40 watts (U. S. rating)

System Impedance: 4 to 8 ohms

Dimensions: 24" x 22 $\frac{5}{8}$ " x 13 $\frac{1}{2}$ "

Weight: 76 lbs. (in carton)

Finishes: Oiled Walnut or Oiled Teak

The **W70D** incorporates the finest components for multiple speaker systems. The 12" woofer employs a massive (9- $\frac{1}{2}$ lb.) magnet assembly on a heavy cast aluminium chassis. The 2" pole piece and magnet keeper plates, of finest Sheffield steel, insure maximum gap flux density with minimum heat loss, as well as exceptional power and transient handling. A special heavy duty 8" speaker serves as a "Passive" radiator for the upper bass range and as an energized driver for the lower mid-range. An acoustically isolated 5" unit handles the upper mid-range, while Wharfedale's advance-design mylar pressure dome 3" tweeter contributes pure, wide-range treble. Individual continuously variable controls adjust the mid and treble ranges

The enclosure employs Wharfedale's exclusive sand-filled construction. Superbly styled, the front grille assembly is easily removed for decorative changes if desired.
